### USP:

Sitting amidst two world heritage sites and amongst a 17<sup>th</sup> century Mughal Lotus pond, the Garden Amphitheatre is approached through a series of flower beds and well-manicured lawn. The picturesque setting with its sensitive landscaping and serene environment provides the visitor a slice of Delhi's history and green calm.

*The Amphitheatre has attached Greenrooms*

The image shows a highly detailed and ornate ceiling, likely from a historical building. The central part of the ceiling features a complex geometric pattern of interlocking hexagons and stars, rendered in shades of brown and gold. This central panel is surrounded by a wide border with intricate floral and arabesque designs. The ceiling is divided into several sections by arched ribs, some of which are visible at the edges of the frame. The overall appearance is one of great craftsmanship and historical significance.

Exquisite ceiling of the  
16<sup>th</sup> century Sunder Burj
